PROFESSIONAL SUMMARY

Product-focused founder and growth strategist with 3+ years building MVPs end-to-end across mobility and healthtech. As Founder/CEO of a technology venture, own the full product lifecycle, including market research, roadmap planning, UI/UX, AI feature design, and investor fundraising, while concurrently leading technology and growth for a second startup. Experienced in running product, engineering, and go-to-market simultaneously for early-stage teams. Seeking Product Manager roles in innovation-driven organizations.

PROFESSIONAL EXPERIENCE

Founder & CEO, Vengeance Technologies

Feb 2022 – Present

- Founded and lead a technology venture as Director since inception; built and scaled two products from concept to deployment, including a mobility-focused taxi fleet platform (Taxiwala) and Aarogya AI, an AI-powered digital health identity platform for the Indian market.
- Own end-to-end product strategy for Aarogya AI: led a full UI/UX rebuild of four production dashboards (patient portal, doctor portal, admin dashboard, main site) using Tailwind, Alpine.js, and Chart.js.
- Defined and specified AI-driven product features, including patient and doctor assistants, a diagnosis support engine, adherence/diet tracking, admin analytics, and a prescription safety and drug-interaction alert system.
- Built an investor-ready pitch deck and prepared a formal funding application (a bank letter plus a 13-section detailed project report) to support a ₹1.5 crore loan and a ₹2–3 crore seed raise; deck includes dedicated compliance positioning (DPDP 2023, DISHA, ABDM/NHA, ISO 27001, HIPAA-ready, GDPR).
- Led fundraising efforts including investor outreach and grant applications; secured a ₹1,00,000+ grant from UPES Dehradun (2024).
- Built and led a cross-functional team across tech, ops, and growth to take the initial mobility MVP from no-code prototype to a native Java app.

Technology and Growth Head, Promove (promovecyc.com)

Dec 2024 – Present

- Spearheading technology strategy and product development from the ground up, concurrently with running Vengeance Technologies.
- Own technical operations and digital infrastructure for the platform, ensuring scalable, reliable delivery.
- Designed and delivered a full curriculum of tech classes end-to-end, owning instructional quality for platform users and combining product, content, and growth responsibility in one role.
- Lead the development team: set technology standards and drive execution aligned to company growth goals.

Business Development Executive & Data Analyst (Intern), Zibew, Singapore

Dec 2024 – Jun 2025

- Led onboarding of medical representatives across India, later pivoting to target hospital media agencies across Southeast Asia.
- Conducted in-depth research on 105+ U.S. pharmacy businesses and POS systems; presented findings and insights directly to the CEO and internal teams.
- Developed strategy reports that shaped internal roadmap and market positioning.

Freelance Data Analyst, Rewardsy, Hyderabad

Sep 2024 – Dec 2024

- Executed solo market research to define go-to-market strategy, working directly with the CEO and COO.
- Delivered competitive insights, growth opportunities, and strategic recommendations that influenced product direction and market outreach.
